Type of Activity: the work as proposed consists of an increase in the current recreational annual catch limit (ACL) for yellowtail snapper and modification of the commercial sector closing the South Atlantic shallow water grouper for the remainder of the year when the ACL is met; Amendment 15 modifies this measure so that only the gag fishery is commercially prohibited when the gag commercial ACL is met. Amendment 15 would also reduce the gag commercial ACL from 353,940 pounds gutted weight (gw) to 326,722 pounds gw to account for projected gag discard mortality from commercial trips that target co-occurring species following a gag closure.
